**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 31-51 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 31-51 are allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose a packet fiber node for use in an access network, the access network including a Head End and a plurality of network nodes, the packet fiber node comprising: at least one processor; memory; a first interface for communicating with the Head End; and a second interface for communicating with at least a portion of the plurality of network nodes; the packet fiber node being operable to communicate with the Head End using baseband optical signals that are received at the packet fiber node from the Head End and transmitted to the Head End by the packet fiber node; and the packet fiber node being operable to permit the Head End to perform at least one operation selected from a group consisting of: service flow management operations relating to downstream channel service flow management; packet classification operations relating to downstream channel classification; and MAC management operations relating to MAC management of downstream channels in the access network.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
